DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 4-5 and 7-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Wachtler et al. (US 4,784,471).

The reference discloses a fluorinated-cyclohexylbenzonitrile compound represented by the general formula A on col. 10 and the claims. The reference compound is useful as liquid crystal composition in electrooptical display device. The Example C of the reference reads on the broader formulae 2-3 of the present invention. The reference anticipates the claimed invention.

Claim Rejections - 35 USC § 112

4. Claim 6 is provides for the use of phenylcyclohexanes of the formula I, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 6 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Double Patenting

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6. Claims 1 and 4-5 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of U.S. Patent No. 5,891,360. Although the

Art Unit: 1756

conflicting claims are not identical, they are not patentably distinct from each other because the claimed compound overlaps with US '360.

7. Claims 1-2, 4-5 and 7-8 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-3 and 7-13 of U.S. Patent No. 6,284,154. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed compound overlaps with US '154.

8. Claims 1-5 and 7-8 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-5 of U.S. Patent No. 5,458,805. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed compound overlaps with US '805.

Claims 1-5 and 7-8 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1-4, 7-11 and 13 of U.S. Patent No. 5,807,500. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed compound overlaps with US '805.

Interference

9. Claims 1-2, 4 and 7 are rejected under 35 U.S.C. 135(b) as not being made prior to one year from the date on which U.S. Patent No. 5,382,379 was granted. See *In re McGrew*, 120 F.3d 1236, 1238, 43 USPQ2d 1632,1635 (Fed. Cir. 1997) where the Court held that the application of

Art Unit: 1756

35 U.S.C. 135(b) is not limited to *inter partes* interference proceedings, but may be used as a basis for *ex parte* rejections.
